

SOUNDARYA H S

Software Engineer | Java Developer | Full Stack Developer
+91 8197145799 | soundaryahs89@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern KodNest Technologies

Feb 2026 – Present
Bengaluru, India

- Developed backend modules, REST APIs, and database services using Python, Flask, SQL, and MongoDB.
- Implemented authentication systems, CRUD operations, and API integrations for web applications.
- Optimized application workflows and resolved critical bugs to improve performance and reliability.
- Collaborated using Git and GitHub for version control and team-based software development.

AI/ML Intern Infosys Springboard

Dec 2025 – Feb 2026
Remote

- Applied Machine Learning and Natural Language Processing techniques to solve real-world business problems.
- Developed data preprocessing and model evaluation pipelines using Python, Pandas, and Scikit-learn.
- Built AI-powered applications involving text classification and intelligent automation.
- Performed exploratory data analysis and feature engineering to improve model performance and accuracy.

PROJECTS

AegisDesk – Enterprise AI Helpdesk Platform (LLM + RAG)| [link](#)

2026

- Built an AI-powered helpdesk platform using FastAPI, Groq Llama 3, MongoDB, and ChromaDB to automate multilingual complaint triage, prioritization, and department routing.
- Implemented RAG-based resolution generation and semantic duplicate-ticket detection using Sentence Transformers and vector search, improving support efficiency.

NexoraAI – Intelligent Ticket Automation Platform| [link](#)

2026

- Developed an AI-driven ticket management system for automated classification, prioritization, and workflow routing using Python, Flask, and NLP.
- Built REST APIs and backend automation workflows that streamlined ticket handling and improved operational efficiency.

StreamNest – Full Stack Content Streaming Platform| [link](#)

2026

- Developed a responsive full-stack web application with secure authentication, content management, and scalable REST API integration.
- Optimized frontend-backend workflows and database operations to enhance performance and user experience.

Personal Portfolio Website

2026

- Designed and deployed a responsive portfolio website showcasing projects, technical skills, certifications, and achievements.
- Integrated GitHub repositories, resume access, and project demonstrations with a modern user interface.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, C, SQL

Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS,

Backend Development: FastAPI, REST APIs, API Integration, Authentication, CRUD Operations

Databases: MySQL, MongoDB

AI/ML & Generative AI: Machine Learning, Natural Language Processing (NLP), Scikit-learn, Pandas, NumPy, Matplotlib, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, ChromaDB, Sentence Transformers

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, AWS Fundamentals, Oracle Cloud Infrastructure (OCI), Google Cloud, Vercel

Core Computer Science: Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

East West Institute of Technology, Bengaluru

2022 – 2026

CGPA: 8.8

Pre-University Course (PUC)

Jnanabharathi PU College, Kunigal

2020 – 2022

92.03%

SSLC

GHS Government High School, Ujjani

2020

92.47%

CERTIFICATIONS & ACHIEVEMENTS

- Oracle OCI AI Cloud Associate
- AWS Cloud Foundations
- Google Cloud Essentials & Fundamentals
- Design Thinking & Java Programming – Infosys Springboard
- Solved 300+ problems on HackerRank, LeetCode, Coding Ninjas
- Participated in TATA Imagination Challenge 2025 and TATA Crucible Quiz
